

## Storage of trailers and boats

From the Organizing Committee we present two official options to storing trailers and boats between periods of training in Santander. During the days of the championship of the Organization shall provide other areas for this purpose.

a)

### Storage

At Sailing Santander we offer a large warehouse to store trailers and containers in a dry, locked storage facility. The warehouse has over 2000 m2 with water pressure cleaning facilities to rinse out all equipment and boats before shipping back.

We also have outdoor secure facilities where you can leave your trailers and other material. Our facilities are located within the city of Santander, a mere 15 min drive from the competition area. Our facilities have **access to a loading ramp into the Bay of Santander**, which is less than 150m from the warehouse, meaning that you can quickly load and unload your boat.
