

Laser Hull Weight and Mast Rake Measurement

Notice to Laser and Laser Radial Competitors:

For research purposes only the International Laser Class Association will be conducting the following additional mandatory measurements during Laser and Laser Radial Equipment Inspection for the Santander 2014 ISAF Sailing World Championships:

1. Hull weight
2. Mast rake

This measurement information will be confidential to the International Laser Class Association and ISAF and will not be disclosed to the competitors or teams. The measurement information will not be used for any other purpose than research and the Laser Class rules will apply as per the event equipment rules.

Jurgen Cluytmans
Chairman, Equipment Inspection
