

Finn on-line entry system

Introduction

The on-line entry system is based on a typical on-line retail shopping experience, i.e. (1) create an account, (2) select purchase (provide information), (3) make payment. All three steps need to be completed - an entry will only be recorded and appear in the entries list when payment has been made. The system has been designed to be as flexible as possible in order to cater for different scenarios, for example Gold Cup only, Gold Cup and Nationals, Nationals only, single entry by an individual competitor or multiple entries by a national squad coach/team leader, and coach accreditation. The downside is that customers can follow the wrong path by accident. These notes are intended to help people using the system to make the right choices. On this page is help on entering the UK Open Nationals.

Tip: What to do if you do not wish to complete an entry

If, for any reason, it is not wished to complete an attempted entry then click on the "logout" link at the bottom of the web page. Wait 2 hours for the system to remove the incomplete entry information then log-in again. A saved account will not be deleted.
